ENTERED JUNE 6, 1903, AT SAN FRANCISCO, CAL., AS SECOND-CLASS MATTER

INFANT FEEDING IN SUMMER

The problem of substitute infant feeding becomes more complicated with the advent of the hot months. The milk supply of most communities is bad enough at all times, but in summer it presents grave dangers to the bottle-fed infant. Most peddled milk contains an enormously high bacterial content, and the use of preservatives is by no means uncommon. Even pasteurization of milk, once it is tainted, does not eliminate danger.

The rational solution lies in the use of

HIGHLAND BRAND EVAPORATED CREAM

Simply the purest of cow's milk produced on model dairy farms—reaching the factory in the shortest time after leaving the cow, and handled with most scrupulous cleanliness—and sterilized and evaporated by a process which makes it easy of digestion and gives **absolute protection against all germs and other impurities.** It is the simplest, most uniform and satisfactory substitute food.

Trial quantity to physicians

HELVETIA MILK CONDENSING CO.

Oakland College of Medicine and Surgery

Corner Thirty-first and Grove Streets, Oakland, California

FACULTY

FRANK L. ADAMS, A. B., M. D., Professor of Clinical Surgery.
 D. D. CROWLEY, M. D., Professor of Principles and Practice of Surgery and of Clinical Surgery.
 ROBERT T. STRATTON, M. D., Professor of Surgical Anatomy and Surgical Diseases of the Nervous System.
 HAYWARD G. THOMAS, M. D., Professor of Ophthalmology, Otology and Laryngology.
 CARL RUDOLPH KRONE, A. M., M. D., Professor of Medicine, Acting Professor of Physiology.
 JOSEPH L. MILTON, M. D., Professor of Anatomy.
 EDWARD NORTON EWER, M. D., Professor of Obstetrics.
 W. FRANCIS B. WAKEFIELD, M. B., M. D. C. M., Professor of Gynecology.
 OLIVER D. HAMLIN, M. D., Associate Professor of Medicine.
 WILLIAM S. PORTER, M. D., Associate Professor of Gynecology.
 JEREMIAH MAHER, A. M., M. D., Professor of Pediatrics.
 WILLIAM KELLEY SANBORN, Ph. G., M. D., Professor of Materia Medica and Therapeutics.

HON. S. P. HALL, Professor of Medical Jurisprudence.
 WILLIAM P. MILLIKEN, B. S., Professor of Chemistry and Toxicology.
 THOMAS C. MCCLEAVE, M. D., Lecturer in Pathology and Histology.
 THOMAS J. CLARK, M. D., Lecturer in Dermatology.
 LEMUEL P. ADAMS, A. B., M. D., Demonstrator of Anatomy.
 JAMES BURRIS WOOD, B. S., M. D., Lecturer in Organic and Applied Chemistry.
 THOMAS A. WILLIAMS, M. D., Lecturer in Bacteriology.
 ALEXANDER S. KELLY, M. D., Lecturer in Physiology.
 ALLEN F. GILLIHAN, M. D., Lecturer in Histology.
 BENJAMIN F. BAKEWELL, M. D., Demonstrator of Anatomy.
 M. LEWIS EMERSON, M. D., Demonstrator of Pathology.
 DUDLEY SMITH, M. D., Lecturer in Materia Medica and Therapeutics.
 GEORGE G. REINLE, M. D., Clinical Assistant in General Medicine.

REQUIREMENTS FOR ADMISSION.

One of the following qualifications: (a) A certificate showing that the applicant has passed the regular examinations for admission to the University of California, Stanford University or any other University or College whose standard of admission is equivalent; provided that students deficient in Latin may be allowed one year to make up such deficiency. (b) A certificate of graduation from an accredited high school or academy. (c) A certificate of graduation from a normal school established by State authority. Attendance is required upon four regular courses of lectures of eight months each. FEES.—Matriculation Fee (paid but once) \$5.00; Practical Anatomy Fee for each of two years, \$10.00; Tuition Fee (for each year of attendance), \$100.00; Graduating Fee (paid but once, but not returnable), \$25.00. Laboratory Fees are charged to cover the actual cost of material used.

Address all letters regarding College matters to EDWARD N. EWER, M. D., Registrar, 1111 Washington St., Oakland.

"The Preparation which made Coca known as a Remedy!"

VIN MARIANI

Introduced Half a Century Ago, Maintains Inimitable Excellence.

FORMULA: VIN MARIANI combines in an agreeable and nutritious French Grape Wine the Unique Medicinal Properties of Specially selected Erythroxylon Coca. Each half-litre bottle represents the Aromatic and Desirable Constituents of Two Ounces of Fresh Coca.

MODE OF ADMINISTRATION.

ADULTS: The usual portion is a wineglassful directly before, or after each meal.

CHILDREN: A proportionate quantity according to age and necessity.

VIN MARIANI is absolutely pure, contains no harmful ingredient, and is entirely free from unpleasant after effects. It may be employed as frequently and as liberally as directed by the physician.

GOVERNMENTAL ANALYSIS MADE AT THE PARIS MUNICIPAL LABORATORY.

Quantitative analysis number 247.

The Director of the Municipal Laboratoire de Chimie certifies Vin Mariani represents exactly:

Density, at 15° C.	1.014
Alcohol, percentage in volume, at 17°	17.07
" By weight, per litre	142.9
Extractive, at 100° in grams, per litre	87.36
Sugar, before inversion, per litre	41.60
" reduced after inversion, per litre	68.80
Sulphate of potassium, in grams, per litre	0.91
Tartrate, in grams, per litre	1.85
Ash	2.24
Acid, calculated as sulphuric	3.13
Acid sulphurous	none
Acid salicylic	none
Saccharin	none
Coloring matter	nothing abnormal
Deviation of polarimeter, before inversion +2°44'	
" after inversion -2°16'	
Coca bases, combined, in grams, per litre	0.220

(Signed) GIRARD, Chemist,

Director Municipal Laboratory.

Paris, France, March 24, 1900.

A DIFFUSIBLE TONIC STIMULANT ADVOCATED IN Convalescence=Wasting Diseases= Neurasthenia

AND ALLIED CONDITIONS.

UNITED STATES ANALYSES

Under Pure Food Commission of Ohio, State Board of Health of Pennsylvania and Illinois Pharmacy Board, confirm examinations made in France, Germany, Russia and elsewhere, and demonstrate VIN MARIANI absolutely pure.

WE WILL DEEM IT A PRIVILEGE TO ANSWER INQUIRIES FROM THE MEDICAL PROFESSION AND WILL SEND DETAIL LITERATURE ON REQUEST.

MAGNIFICENT NEW FIRE-PROOF HOSPITAL

TO BE ERECTED BY THE

CLARA BARTON HOSPITAL

A Corporation organized under the Laws of California and at present conducting a private hospital at 502 Geary Street, corner Taylor

The new hospital will be erected on a lot 85 x 137½ feet, located on Post street, between Franklin and Gough streets, one block west of Van Ness Ave., and will be six stories and basement, of brick and steel construction, absolutely fire-proof; will contain 110 rooms and will be ready for occupancy about January 1st, 1907.

The hospital is to be modern and first-class in every respect, with many original features. The top floor will have a superb operating outfit with three unsurpassed operating rooms. Three rooms are to be devoted to hydrotherapy, and physicians may have their neurasthenics scientifically treated by hydrotherapeutic measures.

The company is issuing five and six per cent. registered gold bonds. These bonds are secured by a mortgage and are sold to reputable physicians by subscription only. A stock bonus is given every purchaser.

For further information regarding the bonds as to terms, allotment and bonus, address,

Listerine Dermatic Soap

An antiseptic detergent for use in
the antiseptic treatment of
diseases of the skin.

LISTERINE "Dermatic" Soap contains the essential antiseptic constituents of eucalyptus (1%), mentha, gaultheria and thyme (ea. $\frac{1}{2}\%$), which enter into the composition of the well-known antiseptic preparation Listerine, while the quality of excellence of the soap-stock employed as the vehicle for this medication, will be readily apparent when used upon the most delicate skin, and upon the scalp. Listerine "Dermatic" Soap contains no animal fats, and none but the very best vegetable oils; after its manufacture, and before it is "milled" and pressed into cakes, a high percentage of an emollient oil is incorporated with the soap, and the smooth, elastic condition of the skin secured by using Listerine "Dermatic" Soap is largely due to the presence of this ingredient. Unusual care is exercised in the preparation of Listerine "Dermatic" Soap, and as the antiseptic constituents of Listerine are added to the soap after it has received its surplus of unsaponified emollient oil, they retain their peculiar antiseptic virtues and fragrance.

A sample of Listerine Dermatic Soap may be had upon application to the Manufacturers

Lambert Pharmacal Co.

St. Louis, U. S. A.

EUCA-MUL

Mulford's

Antitoxin

**"Saves
Most
Lives"**

Every Dose
Furnished in this
Aseptic Glass Syringe ready
for Instant Use

Early Use Important

Reports from the twenty-five leading cities of the United States prove the importance of the early use of Antitoxin.

The average mortality of cases treated with Antitoxin was:

On the First day	-	1.45
Second "	-	3.9
Third "	-	5.67
Fourth "	-	7.29
Later than Fourth "	-	14.49

Dr. H. C. Wood states that as soon as Diphtheria is suspected Antitoxin should be used. If Diphtheria develops, the disease is under control. If diagnosis is not confirmed, no harm has been done by the use of a reliable Antitoxin.

The Chief Justice of one of the State Supreme Courts, says: "Any physician who delays administering Antitoxin until the later stages of Diphtheria is guilty of either criminal negligence or of criminal ignorance." Send for new literature.

Antiseptic Treatment of Dysentery

*Dysentery is a local
disease—inflamma-
tion of the lower
bowel.*

Its rational treatment is by the most convenient
route—by antiseptic high irrigation per rectum.
The best agent for this purpose is a hot,
copious, mild solution of

Tyree's Antiseptic Powder.

This should be repeated at frequent intervals,
governed by the severity of the case.

Other intestinal disorders are much benefited
by the same treatment, by which the reabsorption
of inflammatory exudates is prevented.

TYREE'S ANTISEPTIC POWDER, first intro-
duced for treatment of inflammation of the
vagina, has proved to possess remarkable healing
powers for ALL MUCOUS MEMBRANES.

For full literature and
sample, address

J. S. Tyree
CHEMIST
WASHINGTON, D. C.

FORMULA—Parts, sod. bor., 50; alum, 50; ac. carbol., 5; glycerin, 5; the cryst. principles of thyme, 5; eucalyptus, 5; gaultheria 5, and mentha 5.

IODOFORMAL

THE IDEAL ANTISEPTIC DRESSING

Iodoformal, (A new definite synthetic compound of Cinchonine, Iodo-Sulphate-Thymol Iodide, Bismuth Oxyiodide, Boro Formaldehyde, Phenylacetamide, with Phenic Acid) is a brownish yellow, light powder with a faint, not disagreeable, phenol-like odor, which when decomposed liberates Iodine, Formaldehyde, Thymol, and Phenic Acid. It is a most efficient local antiseptic, analgesic, and astringent and its use is indicated in practically all dermal affections. Being non-toxic and non-irritating it is applicable in many conditions where other antiseptics are not available. It is put up in 1 oz. amber bottles with special aluminum sprinkler top, which makes it most convenient of application as a dusting powder. A sample bottle with explanatory literature will be sent to any registered physician applying for it direct to the originators and manufacturers.

SAN FRANCISCO

WASHINGTON, D. C., January 21, 1902

DR. HENRY E. WAITE, Pres. Waite & Bartlett Mfg. Co.

DEAR DOCTOR:—After three months of capable, unprejudiced, exhaustive labor and research, the authorities at the Barnes Hospital, U. S. Soldiers' Home, Washington, D. C., have given us an order for the Waite & Bartlett Mfg. Co. Static Electrical Machine and X-Ray Outfit which has been on trial here in competition with the Van Houten & Ten Broeck's (Otis, Clapp & Co.) apparatus.

Critical tests, which are absolutely impartial, were made during the period the machines were on trial, because it was the purpose of those in charge of the matter to buy the best apparatus obtainable.

Simultaneously with that trial, another investigation was in progress at the Children's Hospital in this city, where the same makes of apparatus were in full operation, and this institution also concluded that the Waite & Bartlett Mfg. Co. equipment was the best, and we likewise received their order for the complete outfit.

These orders are the outcome of painstaking investigation, and the victory of the Waite & Bartlett Mfg. Co. in both cases is one to be proud of, for their apparatus is thus stamped as the best now in the market, both for therapeutic purposes and X-Ray work.

Another fact to prove the excellence of the Waite & Bartlett Mfg. Co.'s apparatus is that there have been eleven of their Static Machines sold recently in Washington, the purchasers being as follows:

The U. S. Senate
Dr. F. E. Gibson
Dr. Robt. Rayburn
Dr. H. H. Hawxhurst
The Children's Hospital

Dr. Frances B. Bishop
Dr. Gustavus Werber
Dr. Wm. H. Bishop
The Barnes Hospital, U. S. Soldiers' Home
Dr. F. A. Gardner (two outfits)

The U. S. House of Representatives
Dr. C. H. Heron
Dr. H. Krogstad
Dr. Mary Alice Brosius

Yours very truly,

Z. D. GILMAN

N. B.—This is a copy of letter received by us from our agent at Washington, which speaks for itself.

Yours truly,

WAITE & BARTLETT MANUFACTURING CO.

"It is equally derogatory to professional character for physicians to dispense or promote the use of secret remedies."

THE VALUE OF CYSTOGEN

D 64

IN

GONORRHEA

is specially pronounced in those forms where gleet is the prominent symptom. Where gleet has involved the deep urethra and bladder the influence of Cystogen is evident in the rapid clearing of the urine and the disappearance of pus. When the urine is acid the addition of Lithia is of value and seems to aid the curative properties of Cystogen.

Samples on application to

CYSTOGEN CHEMICAL COMPANY
ST. LOUIS, MO.

COMMERCIAL FORMS:

Cystogen—Crystalline Powder.
Cystogen—5-grain Tablets.

Cystogen-Lithia (Effervescent Tablets).
Cystogen Aperient (Granular Effervescent Salt) with Sodium Phosphate.

Formula—Cystogen, (Hexamethylene-tetramin) 5 grs.; Sodium phosphate, 30 grs.; effervescent mixture q. s. to the teaspoonful, (tartaric acid, citric acid, bicarbonate of soda.)

Dioxogen

Differs from other solutions of H_2O_2 in that it is

DEPENDABLE

It is uniformly even in strength and purity and remarkable for its keeping qualities.

It is made solely for Medical, Surgical, and Dental uses, and should not be confounded with the commercial Peroxide of Hydrogen used for bleaching and other technical purposes which frequently contains impurities that are harmful and in some cases dangerous

The Oakland Chemical Co.

Abbott's Saline Laxative

(60 PER CENT MAGNESIUM SULPHATE IN EFFERVESCENT COMBINATION.)

EPSOM SALTS WITH THE "GOOD" IN AND THE "NASTY" OUT

*It Does the
Business and
Never Gripes*

KEEP IT ON HAND

Abbott's Salithia: Special eliminant in autotoxemia of the rheumatic diathesis and obesity. Same base, C. P. epsom salts with one grain of lithium carbonate and gr. 1-250 of colicine added to each 30 grains—a heaping teaspoonful. Same size and style of package; same dose—q. s. Per full dozen, \$6.00; retail price, 75c.

ABBOTT'S SALINE LAXATIVE is an ideal refrigerant, anti-ferment, anti-acid, laxative or cathartic, according to dose and conditions. Its use freshens the digestive tract, purifies the blood and aids all other desirable treatment by clearing the field for action. It is pleasant to take, prompt to act and never irritates.

Abbott's Saline Laxative is often substituted (tho' never successfully) by unprincipled druggists. Always specify as above, and see that you get it. Our absolute guarantee is behind every pound. It may be obtained, for office dispensing, of any jobber or direct from our laboratories. Price, in full dozens, \$4.00 (retail price, 50c). Delivery prepaid for cash with order.

DOCTOR: If you are not using Abbott's Saline Laxative you are making a mistake. If you continue to neglect it, your mistake will be perpetuated and your own loss will grow steadily greater. There's nothing like it. It is going by the ton. Try it on our say so! Money back if not satisfied.

SAMPLES and Descriptive Booklet on request. A full-size package, as illustrated, will be sent to any physician, for personal use and introductory trial, on receipt of 25 cents in stamps; Salithia, 35c; both once only.

TYPHOID FEVER

ACETOZONE is one of the most remarkable germicides known to the materia medica. As an intestinal antiseptic no other agent is at once so potent, safe and generally efficient. Not less powerful than bichloride of mercury or carbolic acid, it is promptly destructive to germ life, yet is harmless to the human organism when taken internally in saturated aqueous solution. Competent authorities pronounce it the most important agent in typhoid fever ever brought to the attention of the medical profession.

Supplied in ounce, half-ounce and quarter-ounce bottles; also in vials of 15 grains each, 6 vials in a box.

LITERATURE FREE ON REQUEST.

TYPHOID AGGLUTOMETER

FOR DIAGNOSIS OF TYPHOID FEVER.

THIS apparatus, which we designate as our "*Typhoid Agglutometer No. 2*," obviates the use of the microscope and the fresh live culture of typhoid bacilli necessary for the Widal test when made in the old way.

Professor McFarland (Philadelphia) says: "For a very moderate expenditure of money and patience an accurate diagnosis can now be made in a few hours at the bedside with materials readily prepared, unlikely to deteriorate, innocuous to handle, and simple to manipulate."

Each package contains materials sufficient for 15 to 30 tests.

UNIVERSITY OF CALIFORNIA

POST GRADUATE MEDICAL DEPARTMENT

410 ELLIS STREET

ANNOUNCEMENT.

Hereafter systematic courses as outlined below will be given in this institution to graduates in medicine.

The work will be of a purely practical character and since the classes are to be limited, each student will have all the advantages of private and personal instruction.

Courses will consist of demonstrations and lectures in the clinic hospital and laboratory.

The school has forty beds at the City and County Hospital, and the members of the staff are connected with several other hospitals and through them have access to much valuable material available for teaching purposes.

The clinic building has recently been thoroughly renovated and is now completely equipped with clinic rooms, dark rooms, modern Roentgen Ray apparatus, laboratory, museum, dissecting room, operating room for experimental surgery on animals, etc.

The first course will begin on October 1, and will last six weeks.

The next course will begin on January 2, 1906. It is probable that the fees will be higher in courses after the first.

Classes are limited to ten (10). A certificate of attendance will be given to those who have obtained 75 per cent of attendance in every subject. The students'

time is occupied from 8 to 12 A. M. and from 2 to 6 P. M., and the hours are so arranged that none of the courses mentioned below conflict.

The fee is \$50.00, and covers all the work described herein.

DESCRIPTION OF COURSES.

MEDICINE.

PROF. J. WILSON SHIELDS, ASSOCIATE PROF. C. M. COOPER, ASSOCIATE PROF. GEORGE H. EVANS, ASSOCIATE PROF. R. LANGLEY PORTER.

The course in medicine will consist of:

1. Bedside demonstration twice a week at the City and County Hospital. Special attention will be paid to the diagnosis and treatment of border line cases.
2. Clinical demonstrations on new patients at the clinic; one hour a week. Dr. Cooper.
3. Clinical demonstrations on diseases of children by Dr. R. Langley Porter; one hour a week.
4. Clinical demonstrations in infectious diseases, by Dr. R. Langley Porter; one hour a week. Dr. Porter has charge of the infectious pavilion at the City and County Hospital.
5. Clinical demonstrations on diseases of the heart, by Dr. J. Wilson Shields; one hour a week.
6. Clinical demonstrations and discussion of treatment of pulmonary tuberculosis, by Dr. Geo. H. Evans; one hour a week.
7. A short laboratory course will be given by Dr. Bine, in which the secretions and excretions of the patients lectured upon will be studied; special attention being paid to the newer methods of blood examination; two hours, once a week.

SURGERY.

PROF. C. G. LEVISON, ASSOCIATE PROF. H. A. L. RYFKOGEL, ASSOCIATE PROF. H. B. REYNOLDS.

The course in surgery will consist of:

1. Operative surgery at the City and County Hospital; two hours, once a week. The material is largely drawn from the medical ward, and is therefore of a specially interesting character. Dr. Ryfkogel.
2. A course in operative surgery on the living dog. Two hours, twice a week. During the course the student will have an opportunity to perform many operations and will be trained in the methods of intestinal suture and anastomosis, the use of the Murphy button, gastro-enterostomy, surgery of the bile passage, etc. Dr. Levison.
3. A course in operative surgery on the cadaver, two hours once a week; Dr. Reynolds. In this course the principal amputations and resections, operations on the head, nerve injections, etc., will be performed by the class under the direction of the instructor. No extra charge will be made for these courses in operative surgery at present.
4. A laboratory course in surgical pathology, to which two hours, once a week, will be given. Of the six demonstrations, one will be devoted to wound healing and its complications, two to the pyogenic bacteria, and three to tumors. Students will make their own preparations. Dr. Ryfkogel.
5. Minor surgery, which will be studied at the clinic once a week. Dr. Reynolds.

GYNECOLOGY.

PROF. H. KREUTZMANN, PROF. F. B. CARPENTER, ASSOCIATE PROF. W. F. FRIEDHOFER.

The course in Gynecology will consist of:

1. Operative Gynecology at the hospital once a week.
2. Studies on methods of diagnosis at the clinic twice a week. Every student will have ample opportunities to make bi-manual and other examinations and to give local treatment, since the material is abundant.

GENITO-URINARY DISEASES.

PROF. L. BAZET.

This course will consist of:

1. Study of clinical cases once a week.
 2. Methods of diagnosis, including cystoscopy, once a week.
 3. Operations at hospital.
-

OTOLOGY, LARYNGOLOGY, RHINOLOGY.

PROF. H. L. WAGNER, ASSOCIATE PROFESSOR M. W. FREDRICK, ASSOCIATE PROF. J. A. BLACK, ASSOCIATE PROF. R. L. COX, and DR. WELTY.

This course will consist of:

1. A review of the anatomy and diseases of the ear, nose, throat and larynx, which will be thoroughly illustrated by preparations and cases selected from a very abundant clinical material.

Special attention will be paid to pyogenic diseases of the brain of otitic origin. The principal operations will be demonstrated on the cadaver. One hour, three times a week

2. Operations at the City and County Hospital.
-

DERMATOLOGY.

PROF. MARTIN REGENBERGER.

This course will consist of clinical demonstrations of selected cases. The latest methods of treatment will be thoroughly studied. One hour, once a week.

OPHTHALMOLOGY.

PROF. W. A. MARTIN and PROF. G. W. MERRITT.

This course will consist of:

1. Clinical demonstrations once a week.
 2. Study of refraction, the use of the ophthalmoscope and other instruments.
- One hour a week.
-

ORTHOPEDICS.

ASSOCIATE PROF. WATKINS.

Dr. Watkins will give one hour a week to the illustration of the various joint lesions and the various methods of treatment.

Dr. Watkins has control of abundant clinical material in his course.

ROENTGOLOGY.

Six demonstrations will be given by Dr. Painter in methods of skiagraphy and Roentgen ray therapy.

NEUROLOGY.

PROF. LEO. NEWMARK.

This course will consist of six lectures on neurology and will be illustrated with cases chosen from the clinical material. Microscopic preparations of the brain and cord will be made use of to elucidate pathological changes.

OBSTETRICS.

ASSOCIATE PROF. R. KNIGHT SMITH.

The instruction in this department will be purely practical in character and will consist of demonstrations of methods of diagnosis, pelvimetry, auscultation and palpation on the living subject.

The manikin will be used for studies of malpositions, their mechanisms and operations for their relief.

Opportunities to attend maternity cases will be given to those who so desire.

"It is equally derogatory to professional character for physicians to dispense or promote the use of secret remedies."

OUTING TRIPS

IT IS HARD TO FIND anywhere on the Continent more enjoyable railroad trips than can be found in the immediate vicinity of San Francisco. Take for instance a ride from San Francisco over the California Northwestern Railway to Sherwood, passing through Marin, Santa Rosa, Russian River, Ukiah, Willits and Sherwood Valleys. Starting from the sea level at San Francisco you reach in transit an altitude of 2295 feet. Valleys and mountain ranges pass in review, and from En Cima near Sherwood miles and miles of unbroken redwood forests are in sight.

A Beautiful Trip, but short, is to Glen Ellen and return over the Sonoma Branch. Sonoma Valley is known for being one of the prettiest valleys in the State.

Another Trip on this Line that appeals to everyone who makes it is over the Guerneville Branch. For quite a long distance the road parallels the Russian River in its most picturesque section. At Guerneville a local train runs between that point and Camp Vacation, skirting the Russian River for the distance of three miles. Travelers claim that this is the most beautiful section along the Russian River.

IF YOU HAVE TIME

For a stay consult "*VACATION 1905*" issued by the California Northwestern Railway, a book of 200 pages with full information as to where persons can rest and recreate at a cost of from \$7.00 and upwards per week.

Yosemite Valley National Park

Among the mountains of the Sierra Nevada, some hundred and fifty miles east of San Francisco, is the most wonderful gorge in the world—the Yosemite Valley National Park.

The Valley is seven miles long and varies from one-half of a mile in width, and is walled in almost completely by cliffs rising on each side from 3,300 to 6,000 feet above its green floor.

Waterfalls innumerable, awe-inspiring domes, spires and pinnacles, and magnificent big trees and themselves to make this Valley the most beautiful and wonderful in the world.

The best way to reach the Valley is by the Raymond-Wawona Route, through the Sequoia Big Tree Grove.

Finely illustrated books concerning this beautiful work of Nature can be had of any agent

CARROD SPA LITHIA WATER

*A Powerful Remedy for Diseases of the Uric Acid
Diathesis. Is the Best Lithia Water on the Market*

Contains Lithium bicarbonate, xiv grs.; Magnesium bicarbonate, x grs.; Potassium bicarbonate, xvi grs., Sodium Chloride, x grs.; Carbonated Water, xvi oz.

UNION DRUG COMPANY, Agents
400 Sutter Street **SAN FRANCISCO**

TRI-IODIDES (HENRY'S) LIQUOR SALI-IOIDES.

Colchicin. 1-20 grain. Phytolaccin, 1-10 grain. Solanin, 1-3 grain. Soda Salicylate, 10 grains. Iodic Acid, equal to 7-32 grains Iodine. Aromatic Cordial. Dose 1 to 2 drams in water. 8-oz. bottle, \$1.00.

A powerful alterative and resolvent, glandular and hepatic stimulant, and succedaneum to the iodides. Indicated in all conditions dependent upon perverted tissue metabolism; in lymphatic engorgements and functional visceral disturbances; in lingering rheumatic pains which are "worse at night." Bone, periosteal and visceral symptoms of late syphilis; for the removal of all inflammatory, plastic and gouty deposits.

A remedy in sciatica, megrim, neuralgias, lumbago and muscular pains; the gouty and rheumatic diathesis; acute and chronic rheumatism and gout; chronic eczema and psoriasis, and all

dermic disorders in which there is underlying blood taint.

An hepatic stimulant increasing the quantity and fluidity of the bile. Relieves hepatic and intestinal torpor; does not cause the unpleasant gastric symptoms of potassium iodide.

THREE CHLORIDES (HENRY'S) LIQUOR FERRISENIC.

Each drachm contains Proto-Chlor. Iron, 1-8 gr.; Bi-Chlor. Mercury, 1-128 gr.; Chloride Arsenic, 1-280 gr.; Calisaya Cordial. Dose, 1 to 2 drachms. 12-oz. bottle, \$1.00.

An oxygen-carrying ferruginous preparation, suitable for prolonged treatment of children, adults and the aged. Indicated in anemia and bodily weakness, convalescence from acute diseases and surgical operations; boys and girls at the age of puberty, and the climacteric period in women. In children with chorea, rickets, or who are backward in development, or in whom there exists an aversion to meats and fats. Prolonged administration never causes "iron headache."

As an adjuvant for potassium iodide the undesirable manifestations known as iodism can be removed. Stimulant to the peptic and hydrochloric glandular system of the stomach, especially serviceable in the impaired appetite, nausea, vomiting and other gastric symptoms of alcoholic subjects.

MAIZO-LITHIUM (HENRY'S) LIQUOR LITHIUM MAIZENATE.

Nascent Chem. Union of Maizenic Acid—from Green Corn Silk—with Lithium, forming Maizenate-Lithium. Two grains to drachm. Dose, 1 to 2 drachms. 8-oz. bottle, \$1.00.

A genito-urinary sedative, an active diuretic; solvent and flush indicated for the relief and prevention of renal colic; a sedative in the acute stages of gonorrhea, cystitis and epididymitis; in dropsical effusions due to enfeebled heart or to renal diseases. As a solvent in the varied manifestations of gout, goutiness and neurotic lithemia, periodical migrainous headache, epigastric oppression, cardiac palpitation, irregular, weak or intermittent pulse; irritability, moodiness, insomnia and other nervous symptoms of uric-acidemia. Decidedly better, more economical, extensive

in action and definite in results than mineral waters.

Those cases of irritable heart, irregular or intermittent pulse so frequently met with by insurance examiners and found to be due to excess of uric acid, are special indication for Maizo-Lithium.

A NEW SERIES

Modern Clinical Medicine

D. Appleton and Company will publish at short intervals a translation of "Die Deutsche Klinik." The articles upon the various diseases have been written by the most eminent men in Germany, such well-known authorities as Leube, Ewald, Boas, Babinsky, Liebermeister, Eichhorst, Strümpell, Curschmann, Jürgensen, Ehrlich, Grawitz, Binz, Nothnagel, Gerhardt, Loeffler, Senator, Krafft-Ebing, Hoffa, Ortner and Kaposi. It is the plan to publish this work in several volumes, the entire work to be translated and edited under the general supervision of Dr. Julius L. Salinger of Philadelphia, Pa. *Each volume in the series will, in addition, be edited by a specialist, and can be bought separately.*

NOW READY

INFECTIOUS DISEASES

Is the First Book in the Series, Edited with Annotations by J. C. WILSON, M. D.

CLOTH, \$6.00

"No set of books of recent years has presented so much of actual value to the practitioner as is promised by the perusal of the first volume—'INFECTIOUS DISEASES.' No library should be without this most modern addition to medicine."—*Eclectic Medical Gleaner.*

D. APPLETON and COMPANY, Publishers, New York

A. M. A. Principles of Ethics:

"It is equally derogatory to professional character for physicians to dispense or promote the use of secret remedies."

To the Members of the Society:

The treatment of alcoholism and drug habits by the proper use of hyoscin hydrobromat has passed the experimental stage and has a recognized place in medicine.

All writers on the subject agree that the "hyoscin treatment" must not be undertaken save under certain well recognized conditions; in other words, he who would use this treatment successfully must be properly equipped.

This is just what I have undertaken. For several years I have been devoting my time almost entirely to this treatment and to a careful study of the subject in general. A well equipped Sanitarium, nurses trained in the handling of these patients and in the treatment itself, and several years of careful study on my own part, are the things which should count with my colleagues.

Your patients, if referred to me for treatment for these habits, will receive my very best attention; as yet, no patient has been thus treated who has not been cured.

Respectfully,

R. E. Bering, M. D.

TULARE, CALIF.

THE HOSPITAL OF THE GOOD SAMARITAN

934 WEST SEVENTH STREET, LOS ANGELES, CAL.

The hospital of the Good Samaritan, located at 934 West 7th Street, is an institution of 100 rooms. A Diocesan Hospital owned and managed by the Episcopal Churches of Southern California, but undenominational in its benefits, being a general hospital for the reception of patients irrespective of nationality or creed. The Hospital was established in 1887 and has always been one of the foremost institutions of its kind in Southern California. Its new and beautiful buildings are located 10 minutes' ride from the heart of the city within one block of five street car lines. It has an equipment equal to the most modern hospitals of the East, having a continuous high pressure steam plant, admirable systems of heating and ventilation, a signal and telephone system, sanitary plumbing, modern kitchen, up-to-date operating rooms, obstetrical and children's departments and facilities for laboratory work.

OPERATING ROOM.

There are four operating rooms on different floors for different purposes. The main operating pavilion of eight rooms is provided with furniture and apparatus especially made to order for this hospital. This department is supplied continuously with high pressure steam and with both direct and alternating electrical currents.

OBSTETRICAL DEPARTMENT.

The obstetrical department is equipped with confinement, operating and sterilizing room, nursery and incubator.

CHILDREN'S DEPARTMENT.

The children's department comprises a ward of nine beds and nine private rooms in the main building, a large garden with tents for those who thrive best out of doors. Spacious playgrounds and a treatment department containing an X-Ray room, plaster room, electricity and massage rooms and gymnasium; also a sun room for the administration of Violet rays in tubercular joint disease.

LABORATORY FACILITIES.

A laboratory has been provided for the use of the training school as well as the profession, containing an autoclave, incubator, hot air oven, centrifuge microscope, microtome, etc.

SIGNAL SYSTEM.

The institution is also fortunate in having had installed a signal call system throughout which eliminates the old fashioned bell service, thus doing away with the noise of the bells and insuring a prompt response to a patient's call.

A. M. A. Principles of Ethics:

"It is equally derogatory to professional character for physicians to dispense or promote the use of secret remedies."

THE POTTENGER SANATORIUM FOR DISEASES OF THE LUNGS AND THROAT

F. M. POTTENGER, Ph. M., M. D., Physician-in-Charge

Located at Monrovia, 16 miles from Los Angeles, in the foothills of the **Sierra Madre Mountains**; 1000 feet above the sea; **free from storms and fogs**; surrounded by mountain scenery, beautiful cañons and gorges, overlooking the San Gabriel Valley with its world-famed orange groves. Three hundred days of sunshine in the year. Best all-year-round climate in the world. The **hygienic-dietetic-fresh-air treatment** is reinforced by all **scientific** measures which will aid in bringing about a recovery. Comfortable and homelike. Address **F. M. POTTENGER**, Monrovia, Cal., or 601-603 O. T. Johnson Bldg., Los Angeles, Cal.

EL SUEÑO

A delightful home for the treatment of brain and nerve diseases and the prevention of mental complications.

CLARK'S SANITARIUM

For the care and treatment of Mental and Nervous Diseases and of Morphine and Alcoholic Habits, was established by Dr. Asa Clark, Medical Superintendent of the California State Hospital at Stockton.

The Sanitarium is located in the southwestern part of the City of Stockton and is surrounded by pleasant grounds, containing forty acres. The buildings are two stories in height and cover one acre. Their sanitary condition is perfect. The corridors are wide, airy and light, affording the patients who cannot be trusted out in the grounds, and all others on wet days, ample room for exercise. The appointments are modern and comfortable.

All Modern Electrical, X-Ray, Massage and Electro-Therapeutic Appliances

The food supplies and cooking are of the best; the milk, butter chickens and eggs being products of the place and abundant. Any patient may have a special attendant, if necessary, at a moderate additional cost.

Charges Moderate

DR. PETTEY'S RETREATS

Devoted exclusively to the treatment of

ALCOHOL AND DRUG ADDICTIONS

Memphis, Tenn., Denver, Colo. and Oakland, Calif.

These Institutions are owned and controlled by reputable physicians and are conducted upon strictly ethical lines. They were opened and are maintained solely for the purpose of treating the ALCOHOL AND NARCOTIC DRUG ADDICTIONS by methods based upon the original investigations of Dr. Geo. E. Pettey of Memphis, Tenn., and first published to the profession by him in 1901. (See Therapeutic Gazette, Oct. 1901.)

The method of treatment introduced by Dr. Pettey removes these addictions from the list of almost incurable diseases and renders them the most certainly and readily curable of all the chronic ailments.

For use as a spray or gargle, dilute with one or two parts of water.

THE CALIFORNIA HOSPITAL

LOS ANGELES

A DELIGHTFUL HOME FOR THE SICK AND CONVALESCENT The California Hospital is one of the unique establishments of America. With over one hundred and seventy-five rooms, five operating rooms, delightful roof gardens and verandas, spacious grounds dotted with semi-tropical trees and plants, with a corps of nearly one hundred nurses, and with the most nourishing, palatable and healthful food, prepared by a first-class chef, it combines all of the necessary attributes of a hospital with the comforts of a first-class modern hotel. Particular personal attention will be given to physicians and members of their families.

Address Medical Director, California Hospital, 1414 South Hope Street, LOS ANGELES, CALIFORNIA

A. M. A. Principles of Ethics:

"It is equally derogatory to professional character for physicians to dispense or promote the use of secret remedies."

Cooper Medical College

For detailed information, address the Secretary at the College, corner of Sacramento and Webster Streets.

HENRY GIBBONS, JR., M. D. WM. FITCH CHENEY, M. D.
Dean *Secretary*

Not to be confounded with so-called "apiol," which is merely an oil of parsley containing more or less of the true active principle, apioline. Professor Laborde's experiments (on animals) prove apioline to have emmenagogue properties, which stimulate the nerve ends of the ovaries and uterus, thus inducing vascular dilatation of the genito-spinal tract.

Dispensed in capsules of 4 minims each.

Dose. One, morning and evening before and during menstruation.

Agents, E. FOUGERA & CO., New York

 SAN FRANCISCO, CAL.

BOARD OF MANAGERS

DR. HENRY GIBBONS JR., DR. GEO. F. HANSON
 President Secretary
 DR. C. N. ELLINWOOD, Treasurer
 DR. WILLIAM FITCH CHENEY DR. STANLEY STILLMAN
 DR. EMMET RIXFORD

Lane Hospital is new and has all the modern improvements and sanitary conditions of a first-class hospital. It is perfectly ventilated and heated, and its great cleanliness and dietary management commend it to physicians and patients.

Hospital charges cover board, medicines, nursing, and attention from house physicians.

Lane Hospital is open to any reputable physician, who may treat his patient there in the full assurance of receiving all professional courtesies. For further information address the Secretary.
